	SUPPORT Tool for writing and using policy briefs	PROGRESS framework: Applying an equity lens to interventions	Searching grey literature: Grey Matters

New Resource!

- [NCCMT Resources Mapped to the Core Competencies for Public Health](#) – See how NCCMT resources support development in the core competencies for public health and fill gaps in competency development.

Coming Soon! Watch for this resource in Fall 2017.

- EIDM Skills Assessment Tool* – Identify strengths in evidence-informed practice and areas for improvement. A personalized report summarizes results and suggests resources to help fill any gaps in skills for making evidence-informed decisions.

Learn how an MPH and Nursing Program are using NCCMT Resources: Videos in the [Using NCCMT Resources in Education](#) series:

- Teaching with Tools** - A professor from the University of Guelph MPH program uses NCCMT resources in his classes.
- Better Outcomes in Post-Secondary Education** - Nursing students from the University of New Brunswick use NCCMT resources in their final project.
